

Things to Know About KinderCare® Pricing

At KinderCare® Learning Centers our goal is to offer the very best in early childhood education. While that means we may not always have the lowest price, we are always the very best value. We put our resources into creating an exceptional experience for your child every single day—and you'll discover that as soon as you step into one of our classrooms and see the faces of happy, engaged children excited about each new discovery.

OUR TEACHERS – We hire only nurturing people with a passion for early childhood education. Then we build on that enthusiasm by investing in their training and continuing education. You see the return on that investment every time you visit our classrooms and you'll hear it directly from your child.

OUR CURRICULUM – Over the past 40 years, we have shaped and updated our curriculum to reflect cutting edge thought on early childhood education. From infants and toddlers to pre-schoolers and school-aged kids, we support children in their continued growth and development—socially, emotionally, physically, and intellectually—with a proven program that balances learning with fun.

OUR STANDARDS – All 1,600+ KinderCare Centers follow their state licensing guidelines, but they also adhere to our own, higher corporate standards of excellence. More of our centers are accredited by the three most prestigious accrediting agencies than any other privately owned early childhood education provider in the country.

Every day at KinderCare thousands of children learn how to read, thousands of children make social and emotional advances, and thousands of children reach important developmental milestones. We put all of our resources into creating an exceptional experience, one that prepares your child for a lifetime of success and a love of learning. It's attaining that experience for your child that sets our costs.
