

Early Foundations for Toddlers

Toddlers learn through sensory experiences that enhance their cognitive, language, motor, and social skills. They turn ideas into words and phrases to better express themselves, and practice the value of sharing and cooperating through group play. Children at this stage start to develop friendships and gain confidence as they use their words and thoughts to interact with others. It's important for children to express themselves creatively and we encourage all children to develop their unique skills and interests!
